

BE PART OF THE NEW TREND

WHO WE ARE

From the initial salt collection process to the final product packaging, our production plant is the only producer of sea salt on the Mediterranean coast to hold the **BRC global certification**, as well as the only sea salt company in Spain that carries the **Fair For Life certificate**.

Founded in 2014, Atlantis Sea Salt Company was established in Spring, Texas with the sole purpose of importing and distributing the highest quality sea salt from Spain's Mediterranean Sea into the markets of North and South America.

At a time of changing consumption trends from chemical salt to sea salt due to its natural origin and rich source of essential minerals, our offer of value is to present a quality product with the best sanitary guarantees and production capacity, supported by the highest international certifications in today's manufacturing industry.

HOW WE OPERATE

Our company has proudly designed its strategy in focusing our main resources in achieving the highest quality processes to obtain the most demanding global certifications. These include **ISO 9001:2015, BRC Global Standard for Food Safety, Kosher Certificate, Organic Salt Certification Procedure (INTERECO) and Fair for Life Certification Programme for Fair Trade, Responsible Supply Chain & Corporate Social Responsibility.**

WHAT MAKES US BETTER

At Atlantis Sea Salt we know that food safety is important at every stage of the food supply chain. Based on this principle, our saltworks has become the only company producing sea salt from the Mediterranean Sea in Spain to carry the internationally recognized **BRC certification**, a fundamental requirement of leading retailers, manufacturers and food service organizations around the world. This global mark, in addition to our commitment to fair trade and responsible supply chains, makes our plant the only sea salt producing company in Spain with the **Fair For Life certificate**. And this combination makes us better than the rest.

WHAT WE OFFER

During this time of changing consumer trends in the industry, from chemical salt in favor of sea salt due to its natural origin and richness of essential minerals for the human body, we offer a product of excellent quality with the highest sanitary guarantees and manufacturing capability as a top-of-the-line alternative to retail leaders through our brand, Atlantis Sea Salt. Our global certifications guarantee a level of quality and sanitation that no other Mediterranean Sea salt can offer.
